Foreword

COME INTO LIFE is dedicated to the Forces of Light who work on the Soul level of pure Being for the fulfillment of the divine Plan for Man. Their love for humanity is responsible for this book as a New Age expression of the Ageless Wisdom. It is an invitation to the Soul Path of service to the Whole.

This second book of aphorisms continues the teachings of *LOVE SPEAKS* which has found so much Soul response for many years throughout the world.

Presented in fifty-two units, these seed-thoughts can be used effectively week by week to advance the Server's growth toward greater understanding of world need and the Way to meet it with the power of the One in Whom all live and move and have their Being.

In the service of the One Life,

—MARTHA LINN

New York, 1961

Come Into Life

Come Into Life

COME INTO LIFE is the urgent call to spiritual change and growth that you may live as a Soul on the Lighted Way of service to the One Life in you and in all humanity.

The soul is the Real Self, Christ-in-you, the hope of glory. At the Christ-level of consciousness you will always hear, "I must *arise* and be about my Father's business."

If you have heard the Inner Voice calling you to put your spiritual energy to work for the regeneration of the world, you will rejoice in the fact that there is a Plan of Light and Love and Power in which you can participate.

The Plan of the One Life is to raise the consciousness of all men into the full stature of the Christ through evolutionary growth in consciousness of Wholeness, at-one with all that IS.

Through Oneness did the son of man become the Son of God.

In the Light power released by Christ Triumphant to Christ-Immanent in all Souls, you can follow the same Lighted Way to Oneness with the Father and with each other as He prayed that you might do.

Oneness means right-relationship, the Christ Principle of Love in action. It is the Love that over-

One

comes the world-tragedy of separatism. It is the fulfilling of the Law of Life because all Life IS One and only universal Love can bring this basic spiritual fact into expression in your daily living.

The nature of the Soul, Christ-Immanent, is Love. Therefore, Come into Life to SEE from the Soul's-eye viewpoint. It takes Soul vision to discover Life's pure meaning.

The plan of Soul Light and Love for all mankind has been entrusted to the Forces of Light, the Great Servers of humanity, headed by the Christ, the Lord of Love working in closest cooperation with the Buddha, the Lord of Wisdom.

From the Highest to the "least of these, My little ones," all serve the One in Whom all live and move and have their Being. The Forces of Light invite your cooperation in this Work, not that you may come to God through Us, but that We can come to Man through you.

The paths to Reality are many. *Come Into Life* is one of them, offered as a simple training in the life of service to the Whole. It will appeal to Souls who long to put their spiritual energy to work but know not how.

*

Come Into Life. Reality Awaits You.

Come Into Life

Cultivate awareness and more awareness of Soul power to awaken the slumbering Christ consciousness in you and in all humanity.

To live and love as a Soul is to be aligned with the unlimited resources of the One Life. Soul Love is universal Love, not the possessive love of the emotional self. Its pure purpose is the Will-to-Good for all.

Your strength to serve the Whole with the Light Forces lies in the conscious Soul-alignment with All Being from the little atom to the endless universe.

Court the Love of the One Life in all you think and say and feel and do. Then pour it forth in Love to all that IS.

Focus profound consideration on the need of the world for the transforming power of universal Light to change its separative thinking. The Light of the Soul developed by World Servers is used to help achieve that transformation.

KNOW the One as ever present at the Fiery Center of all Being. The One is the Great Reality all seek and all must find in the One Life.

The need is for Servers who can carry this divine Flame selflessly to be passed on to others like a

Marathon torch. Should you hold it for yourself alone you will be burned.

From the within worlds We see Reality as a great enveloping Light which can penetrate the hearts and minds of men when there is a place cleared for it.

Concentrate on pure purpose to the saturation point. Such concentration becomes consecration to the Light Work, and such consecration brings transformation from your lower to your Higher Self.

Use this invocation of alignment to direct your energies aright:

“May the power of the One Life pour through the Group of all true Servers;
May the Love of the One Soul characterize the lives of all who seek to aid the Great Ones;
May I fulfill my part in the one Work through self-forgetfulness, harmlessness and right speech.”

*

The Pure of Heart seek not their own but find it waiting for them.

Come Into Life

The Plan served by the Forces of Light is as great in scope as the divinity that conceived it. The Will of the One Life always works with purpose well defined.

Only Soul Love is equal to the task of bringing forth the Plan from the Inner worlds of Being to the outer worlds of operation.

“Operate from the Center” means to function as a Soul aligned with its integrated instrument in incarnation as a Soul-infused personality. “Be thou only My instrument.”

Human good-will, so often motivated by well-intentioned ignorance, can produce a stumbling block instead of a stepping stone to progress. Oneness with the Highest Will is needed. It saves. It perseveres when there is work to do to let that Will be done on Earth as it IS at the Center of All Being.

To be a trustworthy Server in this Work, identify with the eternal Plan for you as well as for the world, and it will manifest on outer levels.

Three

Let no discouragement of circumstance assail the power of your Soul and of your conviction of achievement in that power. Thinking and feeling at the human level make the human problem.

Take heed of the Highest Will in your own least action. Let nothing divert your energy to serve the confused illusion of your separate self. Hold all situations "steady in the Light". Relax to Love, allowing the Soul to have its way with you.

Outpour Christ Love above, below, dissolving barriers to Oneness. Make no mistake; either you are or you are not operating from the Center of All Love.

Only the Soul, Christ Immanent within, can respond to the high vibrations of the Transcendent Christ transmitted to the world as Light and Love and Power to fulfill the Plan.

The Highest Will requires complete capitulation to the energy of universal Love directed from the radiant Center of All Life.

*Root out all separative thought and feeling.
Come into the One Life.*

Come Into Life

The Will of the One is not the will of a Being. It is, rather, the directing Energy of the One Life at the Center of All Being.

Know It as a pool of universal, focused Energy; a reservoir of the perfect Will-to-Good in infinite measure; the divine order of the Whole of which each spark of manifested Being is an integral part.

The One is the Source and Goal of all that IS.

Our Brotherhood of Light to whose Work you are called by your own Soul, knows no sense of separateness. We are all One in the great Work to bring forth Reality in the eternal Here and Now.

This is the major objective to which We are pledged. It is the Path of the Saving Force for which We need your cooperation in the outer world of human affairs.

You will become adequate Servers of the Plan when you have made your minds a cleared receptacle for instant perception of the Will-to-Good for all effecting right-relationship in every circumstance of Life.

Your first task in training for the Work is never to relax vigilance becoming indolent and lukewarm,

Four

for if you do, the opportunity We offer you to serve with Us will vanish from your consciousness. This means watchfulness, especially of your motivations.

Drop the seals of illusion from your eyes. SEE from the Soul's-eye viewpoint, opening your hearts and minds to Love and Beauty that are beyond mortal vision.

Accept the immortal in you by recognizing your Central Fires of Being. A genuine, unfluctuating use of the Christ Energy of Love will radiate a blessing to all beings without questioning their worthiness.

"Service is another word for the utilization of Soul Force for the good of the Whole."

The Server's Path is the Way of compassion. It is the Will-of-the-One in action through you; it is the power to sense the need and to meet that need with the Saving Force of the One Life.

*Be True to each moment's opportunity to love
and serve.*

Come Into Life

Reality awaits you at the Center of All Love. Go there to find it. Then come forth to victory over every outer circumstance or condition.

The Forces of Light are with you in the struggle to maintain your balance when conflicting forces in your lower nature challenge the Soul's sovereignty.

Keep well aware of Our enveloping Light to which you are linked as a Server of the Whole. Establish cooperation with the Light as your pure purpose clearly focused on world-need, for otherwise you will find continuing progress difficult indeed.

The Way is steep but sure.

Unfailingly support the Law of Oneness, for "If you have not Love you have not anything." This is the boundless Love of the One Whose divine Life pervades the universe. The 'One Life' does not refer in any way to a common human ancestor.

Begin to live as an overshadowing presence of God's Love in action.

I am a refuge haven for all who need my aid;
They seek me through the attraction of
God's Love;
They find me waiting with His healing
power to bless them,
Thus do we lift the burden of the world.

Five

Reality holds no possibility of isolation. Reality is Essence unadulterated by the poison generated by egocentric living. Frustration is the inevitable effect of appeasing unreality, the enemy of progress.

Constant catering in and out of season to non-essentials leaves a residue of twisted values to confuse the heart and mind. Make use of the heart's code, at-one-ment, which the forces of illusion cannot understand. So do you outwit their strategy.

Outflank the enemy of Light by a firm will to identify with the Plan, and from that vantage point, bring it into expression. You develop this divine Idea by SEEING clearly as a Soul through the world-illusion of disaster and defeat.

Can you be trusted to hold the banner of Light in dark places?

The New Age needs new thinking. Old habit patterns can be as thick veils between the aspiring Server and his spiritual efficiency. Rend them and be free.

*

The path is arduous, but the cause is urgent.

Come Into Life

The power of the Forces of Light supports the true Server of the Whole. This knowledge can transform your being from one of extreme limitation to an unlimited force for good. Therefore, do not hesitate whenever or wherever there is need to be met. No rest nor self-pity to de-energize your purpose.

Accept the rigorous training you must have for We are one with you and know what must be done in you to bring about the victory of the Christ. Only trustworthy officers receive the secret message for Life's high strategy of battle.

Turn your back on glamor. This takes great courage, but only so can one escape this ancient prison house.

Look at the world in which you move as in a mirror. See it clearly but with indirection so that you do not become involved in its distortion of the eternal facts.

All passes that is not Essence.

The power of form to divert Life's flow to its own ends must be gradually transcended. The Forces of Light reveal the eternal purposes to those who

are magnetized irrevocably to Reality.

When by-products of Life are termed reality and truth a visionary dream, then indeed has a man capitulated to his lesser self which only understands a temporary gain.

Overcome the tyranny of form with vital, energizing Spirit. Never allow yourself to destroy that which seems frail. SEE it in a state of true Being and then infuse it with your Love and patience. Thus do we build unto the perfect day.

Let no activity appeal to you as being under some other law than the perfect Law of true Cause creating true effect. Right rhythm is determined by your adherence to true Cause in all of your affairs.

You will advance to the goal of Oneness in proportion to your *will* to SEE the Whole from the higher mental levels open only to the Soul.

*The true communicator is never out of
contact and his report is true.*

Come Into Life

Only the One Life can bring a right resolution to all human problems. Worry and anxiety accomplish nothing but confusion. Therefore, be strong, not weak; alert, not sleeping; true, not false.

The Source of power to meet all human need can be in action through you if you are well aware of the requirements:

1. You must understand the meaning of true service. We see it as full consecration of energy to eternal purposes.
2. You must make greater effort to respond to need. We see it as the instant rapport with the one in need, minus all tendency to condemnation and plus a firm conviction that all need can and will be met.
3. You must not let your personal affairs interfere with Soul-living. We see it as a just and instant appreciation of true values.
4. You must not be concerned about failures of yourself or others.

Seven

We see them as healed at the Center of All Love.

5. You must not intensify need by overemphasizing it with emotional thinking on the problem to be solved, thus energizing it.

We see it as already met by the power of the One Who loves. The light touch heals. The heavy hand discourages.

6. You must be realistic about living as a Soul in constant contact with Light power.

We see this Light as Christ in action to regenerate the world.

7. Above all you must become world-minded, knowing all humanity as one with you.

We see it as the shared Life of the One outflowing through the Server, releasing Light and Love and Power to transform all men.

*Wear the seamless robe of the invincible Christ
who has overcome the world.*

Come Into Life

Emotional thrusts bespeak the spiritual sluggard.

Would the Will-to-Good slay others by emotional attack?

The crisis of destroying your own protecting, separative shell is the difficult Way of initiation into *conscious* living in the One Life. "When you act defensively you die."

Synthesis is the method of the One, using the dynamic power of active harmlessness to bring forth into manifestation the perfect peace and beauty at the Center of Being which is Reality.

So is sufficient Light released to overplay all darkness.

No longer can the Kingdom of God remain imprisoned in the human heart, potential but inactive. Soul-thinking, Soul-feeling, Soul-speaking, Soul-seeing, Soul-acting, Soul-loving, Soul-willing, make it active.

If you would have the Soul-solution to a human problem, only the Soul must be allowed to motivate your attitude and action.

Beware of determining another's direction except

Eight

through his own Soul's magnetization to the One.
There the divine Will in him will do the rest.

Reality is your companion at all times. SEE it as present in every situation that confronts you, and KNOW that the Forces of Light Support you in the depths as well as in the heights.

Arise to the country of the Soul and do not make the outer world more real to you than the call of the Christ within you to fulfill your destiny as Servers of the Light.

By your Soul's Light power in you are you known to Us. By your Soul Light's radiation do you attract others to the Light.

Let the Soul employ its form as a Light-bearer. So do you at-one the Soul and personality. Only the Soul-infused personality can serve the Plan of Light and Love for all mankind.

*A magnetic field of response to Light
is needed for the work.*

Come Into Life

Your training is to the end that you may be used as a focus for spiritual energy projected by the Forces of Light to regenerate the world. It must be anchored on earth by Man himself.

The consecrated consciousness receives and transmits it into the needy heart of all mankind. This is the sacramental Way of Life.

Be aware of your strategic calling.

The present human crisis moves toward the dissolution of all former separative patterns. Transcend all separatism that the One Life may be made manifest on earth through you.

Therefore, your objective lies unalterably toward bringing forth true Being from the pure Center to the peripheries of living. Allow it to have its way with you removing every barrier to oneness with all Life.

World glamor must be penetrated and dispelled, starting with your own basic values. Glamor is the pursuit of the unreal. It can pervade and misdirect the best intentions in order to serve its own self-centered interests.

The subtleties of glamor are insidious because so seldom recognized for what they are. Glamor can

Nine

persuade the Server to crusade instead of putting his own house in order. Or it can trick you into false humility, the self-depreciation that devitalizes purpose. It masquerades on every level as that which seems desirable. Be aware.

True humility affirms the power of the One to act *through* you. "Of myself I can do nothing. In Thee all things are possible."

Cultivate the silence of the Soul. Noise indicates that your life is not yet centered in the One but is still the separate-self illusion pounding away at its concern with "things" for their own sake.

Soul-directed energy, functioning in mental and emotional quiet, keeps your feet firmly on the Path of service to the Whole. All you do provides an opportunity to know the Real and banish the unreal.

Far from becoming solemn and withdrawn from ordinary life, you will be freed from unimportant things to live fully and with joy in every experience you have.

*

What you know and do not use becomes a liability.

Come Into Life

Arise indeed and rejoice, for the One is with you at all times.

Proceed in confidence of victory for that is the first needed step along the Lighted Way to the radiant Center of All Life. We precede you having pioneered this evolutionary Path.

The Highest Will demands complete acknowledgement of Soul power to conquer the lower elements in and around you, "For His Name's sake". Your will to "overcome" for this eternal Cause is under constant test.

A determination to solve all human problems in the Light of the Soul marks the necessary step toward making you a trustworthy Server with the Forces of Light. Begin with yourself in complete surrender of your affairs, all you are or shall be, to the Soul's knowing of your greatest good.

The Soul solves problems through Oneness, Love in action.

Old personality patterns, of patrolling the area around you with a big stick, needless to say, only augment confusion and inharmony. However, harmony for harmony's sake is no solution. The cause of further conflict is still there.

No man is to be thought of as an enemy. Only evil is the enemy, and evil is never conquered by adding to man's inhumanity to man.

Harness your energies to the divine purposes. Therefore:

No unresolved conflicts within you or with others.

No resistances to Soul decisions.

No trying to follow two conflicting choices.

No maintaining of defences against others.

All this must be cleared and cleansed that you may stand in your spiritual Being at all times and in all circumstances; through all attack and testing.

Know the power of the One Life to operate through you from the Center without let or hindrance.

At the Center in the world of Essence, the Law of Good for all prevails. Bring forth its joy, its Song of Life, by Soul-corrected thinking.

*The flaming heart, the consecrated mind,
control all currents.*

Come Into Life

Let the quality of your daily living act as an interpreter of the Teaching to those in your circle of influence who seek to live and serve as Souls. What you actually are in practice, not what you know or wish to be, radiates the inner Light that magnetizes others to be that Light themselves.

To achieve a Soul-infused personality, let the energies of your form be integrated as an instrument of the divine in you, and then uplifted in consecration to become a channel for the transforming power of Soul Light.

This fusion of the Higher and lower energies in Man is the first and essential great at-one-ment on the Path to Self-realization and service to the Whole.

Only the Soul that has gained sovereignty over its instrument in incarnation can make the second great at-one-ment with pure Spirit.

Inbuilt in Man is the evolutionary urge to reach this Goal of Oneness. It will eventually prevail, whether with slow progress life after life for countless ages, or with rapidity in response to Light.

Even the first steps on the Path require a full consecration to the final Goal of oneness with the Whole. "To serve the Whole with pure intent",

Eleven

let onepointed purpose integrate your personal energies. When all you are is synchronized with this high purpose, that purpose will become the rhythm of your life.

Wholeheartedly, and without strain, you can then serve as a receiving and distributing station of the regenerating power of the One Life. In you, the Light of the One will have found an outlet into the needy heart of the world. This is the highest form of service.

In the New Age, the Age of Christ, the Forces of Light are depending upon the cooperation of those who can be Light-bearers. We invite them to enter in, of their own free will, to the great Work of transforming this planet from darkness into Light.

Your Soul has access to the Source of Light. You can learn to make *conscious* contact with that Light through the Soul-activity known as Creative Meditation.

*

*Only the divine Source contains
the divine conclusion.*

Come Into Life

Creative Meditation provides an accurate, scientific and dynamic means of making *conscious contact* with the Soul, the Real Self.

Only the Soul can find and open the secret door into the Mind and Heart of God. Only the Soul can tap the inexhaustible resources of Light and Love and Power at the Center of all Being waiting to be released into action through the consecrated Servers of the Whole.

So through Creative Meditation, Man can become a co-laborer with God in "making all things new". We teach this Science of the Soul as the truest means of serving human need.

It provides a technique needed to build a bridge of Light between the Inner worlds of Reality and the outer worlds of form, thus providing a direct outlet for Soul power and Soul thinking that can transform the world with its regenerating Energy.

In this creative work, the Server knows himself to be a receiving and distributing center for spiritual Energy; a transmitter of Light power and of ideas of a universal nature conveyed on a stream of Light from Soul levels into the uplifted, conse-

Twelve

crated mind and heart.

To make full use of these resources from the Kingdom of God within you, your Creative Meditation must become a Way of Life, a Way in which the Soul is allowed to control its form in thought and word and deed.

With long and patient practice, the scientific technique flowers into an art; the art of living as a Soul.

In aligning with Soul power, the first necessary step is quiet; quiet of the mind, the brain, the feelings and the external body. This means full relaxation to the Love and purpose of the One within you waiting for your complete attention.

Change your focus to the inner worlds of Reality by stilling the rampant mental-emotional activity of the outer self with its self-centered viewpoint.

The Soul is the Thinker in Creative Meditation.

Align with your inexhaustible resources.

Come Into Life

Let this Higher Energy transform your consciousness from the darkness of unknowing to the Light of the Soul's "direct knowledge" of the Real.

In this process, the stilled mind becomes the organ of the Soul, and the brain the organ of the mind, reflecting and registering Soul Ideas from the intuitional level into the working consciousness.

The mental, emotional and vital physical energies must be uplifted *without strain* to the energy center between the eyebrows, called in esoteric terms, "the meeting place."

In that position, the one-pointed focus of these lower energies provides the negative pole necessary to attract the positive, universal energies downpouring through the Soul, seeking an aligned and consecrated outlet into the lower world of form.

The Light Energy that leaps electrically between these opposite poles, gives *conscious contact* between the lower and the Higher Self. "From the union of Spirit and Matter is the Christ-child born."
EMC.

Be patient in the training period while you learn by practice. A forcing process leads to difficulties, not to achievement. One cannot command the

Thirteen

Soul by human will.

Only an occasional spark of inner Light will leap between the negative and positive poles in the early stages of Creative Meditation. Fidelity and the necessary readjustments will bring the quality and quantity of focus needed to increase the spark until it becomes a flash of revelation.

When the divine Idea descends, make use of creative imagery as does a poet to capture an abstract idea visually. Through the power of visualization, one can truly say, "I SEE."

So does one enter the Garden of Vision to SEE life from the Soul's-eye viewpoint as it really IS. So does one gradually become at-oned to live as a Soul-infused personality.

Finally, when the Soul controls the form consistently, the flow of Light is almost constant between the abstract level of mind in which the Soul functions and the lower concrete mind of the personality.

This is the "Bridge of Light" that the Initiate can traverse *at will*.

*

Stretch your wings for flight into the unknown.

Come Into Life

The Server sees the need for meditation to orient his day through *conscious contact* with the Soul's Light and Love and Power. He sets aside a definite time of quiet concentration dedicated to this purpose that he may do his part in "building for the world."

At first the period should be quite brief, gradually increasing as his capacity for Soul consciousness increases in response to Light.

Establish an intensive point of focus by bringing to the meditation a selected theme or 'seed-thought' to be developed and illumined by Soul vision. The stilled mind can reflect the Soul's Idea accurately.

A universal Soul Idea so received must then be given embodiment in a concrete thought-form if it is to be effective in the outer world of action. Carefully rule out all intruding, unrelated thoughts. Hold the registered Idea 'steady in the Light' and it will attract the right thought-substance for its form life.

Creative Meditation is a building process.

Weave all related thoughts into a seamless robe of beauty that can be put to use. Leave nothing vague. Then infuse it with the vitality of Soul Light and Love to be sent forth into the thought stream of humanity.

Fourteen

Carefully contemplate the Soul's Idea clothed in its creative form. Empower it with spiritual Will to bring about right-action, in yourself and in the place of need toward which it is directed.

CONTACT your universal Being . . . I must BE.

CONCENTRATE on its divine Idea . . . I must KNOW.

CONTEMPLATE what it has shown you . . . I must SEE.

CONSECRATE the inner-realization to right-action . . . I must DO.

Soul vision is a natural faculty of your Inner-Being. It reveals the truth of a situation showing what must be done if the Real is to triumph over the unreal.

With Soul Light your transformed viewpoint sees all outer problems in their true proportions, to be faced courageously and so dis-solved.

Quiet of the form: Control by the Soul: Directed energy of Spirit:

*

Achievement.

Come Into Life

Spiritual pride in achievement can be the subtlest of the many enemies to growth. Surrender of all you are to self-forgetting service to the Whole measures your true progress.

Do not fail the Plan for growth-through-change by fluctuating between what you know from the Soul level of Being in Creative Meditation, and what you would think and do in heedless ignorance if you had not received the Light of Love and Wisdom.

The obstructions that you meet with in your mental, emotional and physical vehicles, disclose how involved you still are in seeking something for the unreal separate-self.

Beware of the traps set for the unwary feet of those who let their emotional longings masquerade as true Soul-guidance.

The Soul directs you to *give* all to the service of the Good-for-all; the emotions would have you *get* all from that Good.

Carry out Soul instructions with unreserved fidelity. Their revelation of the universal Principles and Laws of Good that all must follow will distinguish them from the illusions and glamors of self-

Fifteen

centered good that are only a projection of your own personality desires.

A pure will to live constantly in the universal and eternal rhythm of the One, brings positive guidance to keep you on the Path of service. It overcomes the self-protective habit patterns of your unenlightened past.

The Teaching emphasizes that all life moves to demonstration. What kind of consciousness is your life demonstrating?

By living in the Light of Creative Meditation, the Server becomes an effective co-worker in helping to solve world problems with the power of the One Life he releases into action.

To do this he must, at the same time, allow this power to remove his own obstructions to the free flow of that power out into the world through him.

The purpose is to harness this universal Energy of perfect Good on every level of earth-living and to know how to direct its flow to serve the *Plan* in any outer situation, great or small.

*

You belong to Life, not Life to you.

Come Into Life

On this journey into Wholeness, bear in mind that the One Life is supremely blessed *and* supremely intelligent. Pure Love goes hand in hand with Wisdom, and Wisdom is the right-use of knowledge. Stupidity and ignorance stifle growth.

The human eye extends its vision into the far heavens with a powerful telescope, or explores the mysteries of the atom through a microscope. So does Soul-seeing free the mind from its human limitations to become aware of spiritual facts that lie beyond the vision of the intellect.

However great or small your present understanding, the One remains everpresent in the eternal Here and Now. Creative Meditation develops the instrument by which the vision is extended.

Daily increase your conviction of the Presence underlying all externals until it becomes a practical realization that transforms your life.

Creative Meditation must of necessity be a scientific process with an accurate technique because it releases spiritual energy into the world of form.

At every level Life is energy, the high-frequency Energy of Essence that pervades all Being; the slow vibratory rate of energy in densest matter, and all

Sixteen

the rates of energy between these polar opposites.

Energy centers, waiting to be awakened by Soul-living in Soul Light, are inbuilt in man's constitution, however dormant they may be before the Soul makes conscious contact with its form. Their presence guarantees the possibility of man's next evolutionary step from the human kingdom into the Kingdom of God already within him.

It is human destiny to "grow into the full stature of the Christ."

Complete consecration to Soul purpose in Soul-living, raises the energies of the lower centers used by the self-centered personality, up to the head, throat and heart centers that the Soul uses.

Rejoice in the eternal rhythm of growth.

When you are born into physical life, the rhythm of the heart-beat is set in motion as essential to existence. When you are "born again" into the One Life of spiritual Being, it is essential to enter the perfect rhythm of the universal heart.

In the rhythm of the One you cannot fail.

Come Into Life

Use the shythm of breath for a reminder: *Inbreathe* Life. *Outbreathe* Love. *Inbreathe* Universal Being. *Outbreathe* in the Will of the One.

Maintain your universal rhythm with the effortless ease released by continuity of purpose. Could you live with only intermittent breathing?

Will to supplant the unreal with the Real. Will to act at all times in that transformed consciousness. Synchronize your time and energy in Soul rhythm so that they may have a simultaneous right-useness.

When your Soul reveals your part in the Great Work, however large or small, be ready to accept it and to know the Soul as the one who is "the Doer and the doing and the deed." This removes all personal strain and glamor.

To be ready, waste no more time puttering with trivialities that exhaust your energy supply without rebuilding it. Work in the Soul's universal rhythm of pure purpose which operates on universal energy and is, therefore, inexhaustible.

Your daily duties are, of course, not trivia. It is haphazard thinking while you do them that is trivial. Outer activities will not interrupt your inner Work if you let the succession of your moments flow from the Center through whatever you may be doing outwardly.

Constant, conscious purpose is the real necessity for

Seventeen

those who would advance in usefulness as Servers of the Light. Reflect that Light in all you think and say and do.

Do not allow the virtue of modesty to keep you from realizing your importance to the Work that your own Soul has undertaken of its own free will. The Work concerns the uplifted consciousness of all mankind, and so is dependent upon man's response to Light.

True progress consists of learning to direct your energies from the Soul level of Being out through the illumined heart and the illumined mind to meet the need, whether in yourself or others, for Love's regenerating, healing power.

If your life is to flow in the rhythm of the One Life, ardently remove the self-erected barrier which is the glamor of perfectionism and the antithesis of the Soul's humility. The perfectionist suffers from the need to be right at any cost to himself or others; not only right but approved of.

Success can only operate safely in one who is already divinely indifferent to it.

*

Walk in the Light and quicken your pace.

Come Into Life

Reality is ever present. Understanding and acceptance of this spiritual fact flowers gradually into realization, and thence finally into identification with the everpresent Real.

This is the Path into Life for all. It is the Path that lies straight through the dark shadow created by the personality resistances to Light. Each of these obstacles, born of self-seeking separatism, has to be faced and resolved by dedicated purpose to fulfill your destiny as a Light Being before Reality can find expression in you.

Selfless, Creative Meditation is the royal road to contact with the Light that reveals the self-erected mountains of illusion to be removed by Love-directed Will to serve that Light.

Make the most of every conscious contact with this revealing Light, for each test of true purpose to move forward from the unreal to the Real is harder than the last. Until you see clearly in the dark areas of your experience, you are not ready to be entrusted with the sacred code of the One Life. Hence the tests for stabilization.

Faint not when the ebb tide leaves a barren strand.

Place your Whole Being at the disposal of the Forces of Light, for you will need Their support as you advance through the darkness of your dear illusions

Eighteen

that must be transcended. All obstacles arise for you to master in the power of Soul Light.

To maintain Soul poise in difficult moments, be firm of purpose, pure of intention, and spontaneously real in all of your relationships. All that you do and think and feel is charted in the eternal Archives by yourself and no one else.

Do not let your present incapacities be uppermost in mind to tempt you to discouragement. Rather, place your all, for what it is at present, into the coffers of the One Life that you may again draw therefrom freely and at will.

Your progress depends upon your inner, often hidden strength, and not upon your temporary outer weakness. The Christ Triumphant is your invincible strength. "Take your refuge in the Law." Will to be only an instrument of increasing service to the Whole, and you will grow.

Embody the Christ Principle of all-inclusive Love to your present full capacity. Thus can "the least of these, My little ones", be born again.

*

Out of the travail of matter is the Eternal born.

Come Into Life

Since all Life is One, require yourself to speak Spirit to Spirit to all your fellow men regardless of their present status on the ladder of evolution. Their Spirit will respond amazingly.

ALL IS the WHOLE. The part is the Whole in miniature. In Reality there is no part, for at the Center all is One. To prove this spiritual fact, it must be put into practice at all levels of your Being simultaneously; developed equally, and integrated.

Remember that the Christ of Galilee concluded every healing with an affirmation of this Reality: "Be thou made Whole."

Universal energy flows freely from the Center of All Good to re-enforce pure purpose. In Reality, divine Energy is inexhaustible. It is your human use of it that is so limited. As long as you run your lives on personal energy, just so long will you be subject to inevitable exhaustion.

Is there not sufficient spiritual energy available to charge and re-charge the endless universe?

None of it is yours to waste, however. Conserve all energy when dealing with the non-essential in your lives. But at the same time try to realize the boundless energy flowing from the Center of Being to fulfill Itself. Energize from the Center to be made Whole.

Nineteen

Energy wasted on the unreal leads only to futility and is the cause of all frustration. SEE, WILL and ACCEPT Wholeness. Win your citadel for the One Life. Move into Its rhythm and work from there with effortless effort as only the One within can operate.

Be not fatigued in the long ascent into the power of the endless Life. Linked with the Hierarchy of Great Servers you can tread the Path of Light with confidence that you will reach the Goal.

Our own lives are proof that all progress which is required of you can be achieved, for We have pioneered the Way that all must travel on the return journey Home.

We shall be with you on this difficult Path. So there is no need to fall back upon a fear of failure. But also do not be coerced by spiritual ambition into a pattern of over-strenuous action beyond your present strength and understanding.

Clear your life picture of the usual hindrances to progress that are so often due to ignorance and to the paralyzing power of inertia. Also beware of nullifying power by the human habit of a divided consciousness: "This for God, and that for man." At the Center they are One.

Know the Center as your Source and Goal.

Come Into Life

Before your life trend can be set to the divine pattern, you have to make certain specific choices to discriminate between the unreal and the Real.

The momentous decision is to cast your lots forever with that divine Center of your Being "where truth abides in fulness." Come into this fulness of Life's meaning by living through Creative Meditation and right action in the Light of the Soul so that We can *impress* the divine Plan for human progress on your consciousness without willful opposition on your part.

We count on your cooperation in the Work to raise the consciousness of all men into the Light of their Real Being.

Be true, therefore, to each moment's opportunity to change and grow into greater realization of the Whole in which the objective and subjective worlds, those two great opposites, have been at-oned. This will release you from the ignorance of unreal thinking.

It is the uncontrolled activity of the lower mind immersed in the illusion of outer appearances in the objective world that tries to hold you back. This is because it has for so long functioned as a unit with the desire nature of the personal self.

Twenty

Quieted and consecrated to Soul purpose, it will cooperate with the Higher Self when trained to do so. The mind is designed to be the servant of the Soul and not its enemy.

The Ageless Wisdom teaches that "The Soul must govern, and its instrument in the warfare is the consecrated mind."

Your mind is, therefore, needed in the Work, so do not think that We ask you to suppress it. On the contrary, use it fully to reflect the Soul's knowledge of the Real. This overplays and corrects the limited knowledge that the five senses can provide, geared as they are only to the vibrations of the outer world.

No scientist would be content with facts reported only with "the naked eye." It takes Soul sight empowered by Soul Light to penetrate the densities of form and find Reality in all that IS.

"Be not deceived. Underneath the veils, KNOW ME. FIND ME."

*

Let permanent values guide your every choice.

Come Into Life

All that you think and feel and do, operating from the Center of Being with the power of Soul energy, advances you into a further realization of the mysteries and joy of the One Life.

Let no activity appeal to you as being under any Law but that of true Cause creating true effect.

In your creative functioning, pure purpose leads you directly to a specific Goal of bringing forth the Real into expression. For divinely intelligent creativity you cannot wander aimlessly in the Inner worlds, arriving nowhere in particular.

Realize your obligation to the Great Work awaiting your full participation.

An accepted worker has responded to the call of his own Soul to serve the Cause of Christ in all humanity, and so has orders to fulfill.

Stand at attention, releasing all outer tensions coming from the unreal, so that your heart and your mind may be liberated to become a receiving station for the joy of pure Being which awaits you and the world.

Once *fully* made, this necessary change of focus will cause you no regrets however much it may cost

Twenty-One

your personal self to serve purely as an outpost in Our consciousness.

To be effective, the Light must find an outlet into the world of human affairs through the consecrated hearts and minds of those who can serve the Whole with pure intent. This means under Soul control without self-centered interest to defile it.

Universality, the All Good for all that IS, always characterizes true spiritual activity.

Without human cooperation rooted in the pure Will to serve the Whole, the all-powerful Light of the One Life cannot be expressed on human levels although It is forever present seeking for consecrated channels through which to heal and bless the world.

True stability comes from a firm focus in the self-forgetting Will to serve the One at any cost. "If thine eye be single, thy *whole* body shall be full of Light."

Wing forth to victory with the Forces of Light.

Come Into Life

Your spiritual energy has work to do for the divine Cause on Earth. No longer can you live at loose ends with your energies diffused for lack of a focused purpose in the service of the One.

Place all you are or ever shall be at the full disposal of your own Soul, your Real Self. This first alignment links you with all power that is directed to eternal ends.

At the Center of Being shared with All Life, Light radiates out to contact any periphery of need. Because all Life IS One, this whole universe is one great intercommunication system. The functioning Soul operates like a receiving and distributing station on this Light network.

Soul contact through meditation and Soul-living awaken into activity the latent energy centers in-built in Man designed for this purpose.

To your present measure, let the Higher Self control the lower. Gradually overcome the age-old habit of referring all life experience to the little outer self with all its limitations.

The illusion of separatism can befog every issue of your spiritual growth as the result of egocentric thinking. Be at-one with all that IS.

Oneness is the Law of Life. You do not create it. You cooperate with it in the integrity of the part to the Whole, or you violate it with self-seeking.

Twenty-Two

Soul direction of your energies to creative purposes for the good of all, performs the miracle of removing mountains of conflict which bar your progress on the Lighted Way. Like Hercules, use your strength to turn the River of Life through the Augean stables. It succeeds where you will fail by using the shovel of strenuous personal effort.

Forced growth is false growth. It has no roots in permanent values, and so will wither under adverse conditions. The Soul's discipline is joyful, not oppressive. It is a Path of liberation not captivity. So do not impose your own ideals of what you think you "should" be. They too often spring from spiritual ambition and are only hidden glamor.

Relax to Love. Partake of the ever-present Real.

No halfway-ness, which is going in two directions. With a dedicated, integrated instrument at its command, your Soul releases you from former limitations into a new dimension of creative living.

Then the humble Server of the One can say, "Winged, I go forth, armed only with victory over complexity."

*The conquest of the self-centered mind is a
direct road Home.*

Come Into Life

Journey on and on. Learn to realize that you are seeking liberation from the illusion of separatism into the Reality where all Life IS One. Love is the expression of the One. Without Love you have not anything.

With the true guidance of your own Soul, you will move forward to your destination without hesitation and without conflicting motives.

Spiritual Being. Spiritual expression of that Being. Completed action.

Determine to express the Reality of Oneness, to your measure, in all you think and say and do. Then will all your developed faculties respond with natural ease to high instead of low vibrations in your environment.

Great straining is not needed, nor is it even helpful. Strenuous effort that overtaxes your present capacity is a personality, emotional way of trying to succeed. It is like a spiritual-childhood fever indicating an unhealthy situation.

Operate from the Center. Link with the Whole. The strength of your unalterable conviction carries you like the soaring of an eagle to the mountain top.

Therefore, make your heart and mind the obedient servant of the Soul, that you may focus on the Real at every level of experience. Only in the

Twenty-Three

fiery crucible of Life itself can truth be realized.

Soul awareness releases the glory of the Real concealed beneath the outer appearance of the most ordinary objects that surround you.

Through Soul-seeing, your belief and hope will be replaced at last by direct knowledge of Oneness as a fact. This Reality eternally awaits your *conscious* recognition.

Swing forth in Love to the Goal, all else gladly left behind. We ask you to participate in the One Life that is attracting your cooperation so that you may become a purified, effective channel for the power of the One to reach the many.

Be established in the purpose of the Plan for all "to be made perfect in One." This is the Christ triumphant in all men.

You will eventually arrive at the full stature of the Christ-in-you even if it should take you another million years and many lives of evolutionary growth toward Oneness with the Whole.

There is no better time to start and pursue the journey than in the eternal Here and Now already wistfully beckoning you to rise and come.

*

"Fear not, for I have overcome the world."

Come Into Life

Come into Life. As you make progress in your will to work for the Great Cause, you arrive at the next step forward into the freedom of the Real. Expanding recognition. Extending realization. Surrender to the Whole.

So do you arrive at a new stage of the eternal journey, the past transcended.

No substitute will be accepted along the Lighted Way for the stability of true character-building, constantly applied to every situation in your experience of the Inner and the outer worlds. Added power to step up your consciousness can only be received by those who ever keep in mind the need to make over all they are to the One Life.

A candidate for the ascent in consciousness comes under intensive observation as a Light-bearer. Be aware. Know your outer problems as already solved at the Center of Reality. This frees you to make your whole concern the unfolding of the Plan within you.

The Plan for you is to BE a useful Server of the Plan for all.

Beginners have the tendency to cling to their achievements as their own. This personality illusion can only be dispelled by a major operation, with each one his own surgeon. Use the Love of the One

Twenty-Four

without stint to assure a true resolution of this problem.

The first step is to agree fully to remove the self-centered attitude, for the concept of your own superior advancement squarely blocks the Path to the self-forgetting policy of following the Highest Will and at the same time attributing nothing to the little self.

Serenity in the face of failure is far more spiritual than the pursuit of spiritual ambitions. Beware of glamor masquerading as a desire to be a shining light to others. It is really their approval that you seek.

Place your heart and mind in the Center of All Being and We shall meet you there in the Reality that frees you from yourself. At that Center all is provided that the Server needs for progress on the Path.

Be a true focus for the Light. The Cause is urgent.

Therefore:

Purity of intention . . . no separatism . . .

Firmness of purpose . . . no halfwayness . . .

True to the divine Idea . . . no distortion.

Remove the stumbling block of self deception.

Come Into Life

You are now at a crossroad where We must let you decide your own course by the divine Light which We have helped you to attain. Be wholly self-forgetting in your decision to go forward, to retreat, or to stand still.

We bless each of your new beginnings.

Start forward from your present position to recapture all the untied threads that weaken the fabric you are striving to weave into the seamless robe of the Christ.

We must wait in patience if you delay and hesitate in your choice between the unreal and the Real. Nothing, however, is considered wholly wasted, much less spiritual energy motivated by goodwill.

But remember that mere goodwill without the guiding hand of Wisdom can be a misleading force through ignorance of the facts. Goodwill can be, and often is, sincerely wrong in spite of all its good intention. For right direction, goodwill must be transformed into the Will-to-good.

Make each moment a new start upward on the Path, looking not backward except to recall enlightening past experience that will help you to correct your faults of character.

When you keep moving forward in spite of every

Twenty-Five

obstacle created by your only partially developed understanding, you will change and grow until you finally arrive. To this end, consecrate all your forces to Soul Light, Soul usefulness.

Thus will the instrument of the Soul, your outer self, be enabled to live and act in the service of the One, to its full measure at its present level of development. See you to it.

If you enter the service of the One Life, you are offering not only your goodwill but all you are, to be transformed into a tried and trusted vehicle for the expression of the One Life in the outer world.

Wholly in the interest of achieving your trained co-operation with the Plan, We have given this message of Come into Life in this important era. It can help you fashion an instrument worthy of such high use.

Are you willing to do your part?

Believe in your power to fulfill the requirements of a dedicated Server. This is an essential step for those entrusted with participation in any project connected with the Great Work of bringing forth the Christ in Man.

*

In the Christ you have all the strength you need.

Come Into Life

If you operate from the Center, you cannot fail to do your part. It may as yet be a small part, but still it is important to the Whole as is the tiniest jewel in a watch mechanism.

You have been cautioned earlier against the falsity of overdoing. But halfway-ness, which stems from a weak will and a divided heart, is even a greater hazard to progress on the Path.

A properly disciplined focus through Co-workers is needed for the Christ activity to serve the Plan for Man.

You have often been too easygoing for a full-fledged Worker in the Light. It is the result of knowing more than you will carry out.

You are out of focus when the part obscures the Whole. This refers to keeping your personal affairs always in the forefront of your thinking, blocking the Soul's vision of what is and what is not important.

True service comes from a conviction of the Real so strong as to be the major influence in all your choice of values.

Your Work is established in the Light of the One

Twenty-Six

Life. Take care of each least word and thought, for you can never tell when your Soul status will be tested to the full. Light reveals.

In proportion to your training will your testing be.

You have responded to the call of your own Soul to be a willing Server of the Plan for the regeneration of the world. Responsibility is, therefore, the key word for your decisions.

Realize the self-starting forces in the magnetic field of the true Worker, linked with all that IS. You are custodians of that which the world needs most if Man is to move forward into Light instead of into further darkness.

Would that you could understand the urgency of need to hold the balance of power for the Forces of Light.

"I hold aloft the torch, that others too may walk to Thee."

Hear ye. Hear ye.

*

Your spiritual Will to love is the key to progress.

Come Into Life

Here are the essential requirements for an accepted Worker with the Forces of Light to serve the Plan for humanity.

Trust your own Soul, which is Christ-in-you.
Keep your mind focussed in the Light of the Soul.

Keep your heart open to all sendings.
Distinguish between the unreal and the Real.
Build character on eternal values.
Remember your Hierarchical connections at all times.

Know the victory of the Christ as preordained.
Affirm all Life IS One.

Practice Oneness with Those above as well as those below.

Surrender all you are to universal Love.

These are precautions against human instability.

Each Server's guide to Wholeness is that divine Plan for all mankind to bring forth the Kingdom of God on Earth by Soul-living.

In the power of the Plan to transform you and the world, you will find all Life for you fulfilled. When you live and function as a Soul you can be sure of true direction. All is a cooperative undertaking with the Forces of Light.

Twenty-Seven

Keep high the consciousness that your own functioning Soul is the receiving station for the energy of the One Life seeking a pure outlet through which to work its wonders in the minds and hearts of men.

The technique of serving scientifically with Soul power makes you a transmitter of spiritual energy from the Center of All Good to meet the human need for Light.

Careless thinking and lack of loving deprive you of directed energy required for the Work that you can do, and for which you will be held responsible by your own Soul.

Consciously place yourself at the Center of All Love and Wisdom, the Source of sustaining energy needed for true progress toward the Whole. From that Center you go forth to love and serve in the power of the Endless Life.

Live and work as a Soul attuned to the Highest Will for you.

*

"There is a Power that makes all things new."

Come Into Life

Live at the universal level of your Being where you can be a receiving center tuned in on a universal wave length. So will you finally hear the music of the spheres, the harmony of Love in action.

Comm-union brings comm-unication with the highest sendings. The impressions one can receive depend upon the degree of dedication to the Whole. The Center is infinite in depth; the journey into it is endless.

Consciously or unconsciously you are linked with all that IS. Through Creative Meditation and its flowering into the universality of the Soul, you progress into ever more conscious contact with the all-pervading Presence of the One that IS.

Just as the outer ear has been developed to hear outer sounds, so will the inner ear develop in response to the high, impersonal vibrations of the world of Spirit. Do not confuse this with self-centered, lower-psychic hearing from the emotional level.

Enlightenment from the Mind and Heart of universal Being, reaches you to the exact measure of the instrument that is provided to receive it. By being faithful to your present capacity to accept Reality, you grow into an everwidening consciousness of true Being.

No man can or should impose his limited measure of

Twenty-Eight

that truth upon another. The work of a teacher is to encourage Soul-awakening, for it is the Soul, the Christ-in-you, who can "*Know the Father's Will and do it.*"

The will to serve the Whole attracts you to a teacher trained to communicate the Ageless Wisdom which is Man's divine inheritance as an evolving Son of God. Acceptance and growth in understanding are strictly the responsibility of your own Soul.

All is under evolutionary Law of growth from the unreal to the Real.

In the Center where all Life is known as One, you will recognize the impossibility of working by yourself to serve the Plan. In the One Life you are linked with Those above you in the evolutionary scale, the Great Servers of Humanity, as well as those below whom you would serve. "I look above; I help below."

When you are ready, your own Soul will lead you to a Group of Serving Souls with whom you can work consciously in Oneness to bring forth the Plan of Light and Love. So will the transforming power of the One Life be increased by pooling energy.

*

The fields are white to harvest; the laborers, few.

Come Into Life

Group experience is your opportunity to practice the Oneness you profess. The Group must be one integrated unit of service in order to be an effective instrument for the increased power it produces.

Without experience in Oneness, the spiritual fact of Oneness remains an intellectual concept only. Not accumulated information, but experience in practice, expands the consciousness of essential Oneness.

In yourself tolerate no division of viewpoint: "This for God, and that for man"; one part dedicated to the Real and the rest a willing victim of illusion. Correct this by meditating on your true position in the Plan, knowing yourself as a needed instrument of accurate and instantaneous response to the Highest Will to Good for all.

Constantly use Soul energy in *all* of your activities. Your inner and your outer life must be understood as one, right down and through the depths of the unconscious areas which must be brought in line with the conscious. Otherwise there will be conflict of interest between a personality view of the desirable and the Soul's Idea of the Real. This leads to intolerable frustration.

Only a well-integrated personality makes an adequate instrument for the Soul's use. You must know who

Twenty-Nine

you are on every level at once.

Clear your life picture of the usual hindrances to progress. Many of them are due to ignorance regarding the unregenerated forces from man's involutionary past which still have power over him.

These, too, must be full-fronted and transformed from darkness into Light. Let the "Innocence of ignorance become the innocence of Wisdom."

You have come a long way when you can encounter the phenomena of your emotional levels and remain unmoved. But one who continues to be motivated by his desire-illusions, must expect to endure the problems and disasters of such unreal living.

Unshakable purpose can integrate all levels of your being into one effective focus for the Forces of Light that are seeking your cooperation. To this end, face and overcome your hidden conflicts.

The practice of Oneness with all that IS includes Oneness with yourself. How else can the Christ-Principle have full dominion in your life?

*

Unless expressed, the Principle remains inert.

Come Into Life

Accept the Wholeness that awaits you at the Center of your Being. At that Center of Oneness with the Whole, all is well eternally, regardless of the temporary problems of the little, outer self.

Soul-living operates from that Center of All Good.

Your conflicts and confusions come from living at some periphery where the age-old concept of separatism still holds sway.

So does the Soul become a prisoner of the personality and not its master. Free the Soul to act through all your life experience and the Highest Will-to-Good will find expression in all of your affairs.

Many who think they want the Light of the One Life as their guide, continue to weave a self-centered web of illusion to entrap them. They may, indeed, desire the Light, but are not ready to let it lead them to the Real.

There are no human problems in the Kingdom of God, already within you, where the Soul dwells in complete harmony with all that IS.

Your carefully nurtured human problems can be solved divinely only by Soul energy bringing Soul perspective to establish right-relationship. Not time, but the intensity of focus upon Soul victory over every ill, determines how quickly the Light will be effective to heal and bless the one in need

Thirty

whether yourself, another, or a world-wide situation.

When working to precipitate an immediate Soul-solution to meet an urgent need, remember not to dwell upon the need itself which inflates and energizes it. Know it as cared for at the Center of All Good.

Create a focus for the inevitable victory of the Soul, thus allowing the perfection of the One Life to function *through* you. Then will the need be met exactly as it should be, unrestricted by your limited human viewpoint. This removes the fear of failure.

When others seek you out for help in understanding, avoid the mistake of flooding their present, limited capacity by pouring your Light too fully before they have been tried and tested in the fires of their own Souls. It is the mistake of zeal used by the crusader.

Rather, serve the Light by first listening carefully to sense the true level of need, and then using "skill in action" to help adjust their viewpoint to the Light of their own Souls, not yours.

The illumined heart makes possible the illumined mind.

Come Into Life

For this work with others you have to develop Soul-skill, for only the Soul can sense the need and the capability of understanding in the one you have been asked to serve as teacher of the Way.

You can teach the Way only if you have yourself become the Way by dwelling in Christ to your full measure. From that level Our Co-workers can go forth to meet the kind of need that they are capable of handling in the Light.

When you are so called, take nothing with you but the assurance that you will be Soul-guided in what you say and do through Love.

Keep ever in mind, as your training has taught you, that divine power can overcome all the spurious conditions thrown into outer expression by man's ignorance of the Law of Life.

Keep also in mind that not you but the power of the One Life flowing through you works the "miracle" of removing mountains of debris piled up in a long past of self-centered living.

Be constantly ready for this high calling to be used as an angel of mercy to needy little ones hungering for the spiritual food that you have been prepared to give them. Only the consecrated mind and heart can undertake this work effectively.

Your work with others requires concentration of your

Thirty-One

own energies in the Center of All Love where all IS well. Be at peace, therefore, about your personality affairs. A teacher of the Way must watch his thoughts and words and deeds, for they affect the quality of the universal Light with which wonders can be worked.

A worker who worries emotionally about his outer security becomes the laughing stock of angels since he must KNOW that in the One Life every *need* is met. Note the distinction between needs and wants.

Integrity to the Center of All Good must be scrupulously observed if one's Highest Good is to manifest on every level of his living.

First, a true choice of economic responsibilities that represent a need and not a want. Then the spiritual Will must be enlisted that will release a true flow of energy to meet the need. Will-doing, not wish-thinking is required to bring security.

Turn into service all the teaching you have had, for many will be confused in the New Era unless their minds are cleared of the world's self-centered, glamorous viewpoint that comes from and leads to insecurity.

*

"And I, if I be lifted up, will draw all men unto Me."

Come Into Life

Here is a maxim for those ready to be teachers of the Way: Embody a burning Love for the Real in full expression in your life. What you ARE conveys the truth far more effectively than what you *know*.

First, convert your own life to the Real and let It speak through you.

Release the Love-energy of patience to deal with all annoyances. This will let you rise above them with divine indifference so that you can handle them correctly. Divine indifference is always a force for Good, while human indifference is its negative opposite leaving the "need" unmet.

Gently but firmly attack your necessity for an undivided consciousness that is wholly dedicated to the Work your Soul has undertaken of its own free will. Then will you find the Work of the Light-bearer directly in your Path, waiting to be recognized and done.

Perhaps the next step forward on the Path appears too difficult to take. Take it, and the impasse melts away.

You are, of course, the result of your own past. That past is now exerting undue influence on the present. Therefore, your immediate need is to relinquish your attachment to the past. Your future

Thirty-Two

can thus be freed from its dictatorship.

The out-going note has been sounded for all that holds you to the past with its inconsistencies and to the tyranny of your preconceived ideas. These are still many in spite of your evident goodwill to grow in understanding.

As they depart after a few painful rendings, rejoice instead of feeling lost without them. When they are joyfully discarded, the new Life of the One can enter in to motivate you.

Also, beware of the separative habit-pattern of aloofness as you seek to tread the Lighted Way. The Way of the One is of necessity all-inclusive.

Aloofness is a very human pretence to spiritual superiority; a self-protective withdrawal masquerading as the virtue of detachment. Real detachment is Soul freedom from the prison of illusion.

In Reality all is indeed yours. But to attain the Real, the unreal accumulations of the past must be cleaned out to clear space for the building of the future.

*"As long as you harbor a viper in your bosom,
it will sting you."*

Come Into Life

Create your own true future moment by moment by paying up past debts. Your present situation is the result of your past choices. Your future will be the result of present choice. Look at your values.

Make the most of the knowledge that you now have to control the winds and the waves of circumstance with Soul power for Soul purpose. Why stumble along and fall into outer confusion when you can choose to walk the inner Lighted Way fearing no obstacles?

If you allow selfless, universal Love from the Soul level of your Being to function as your motivating force, you can overcome the insecurity of self-centered thinking. At the same time you will KNOW that your Highest Good awaits you in Reality.

“Not my will but Thine, be done.” If you would grow in Spirit, you must learn to sacrifice the unreal to the Real.

The Center is the all-good where no need exists. Let the Real manifest by discarding the unreal. When you accept Soul values, your idea of needs will change.

If you are asked to help another bring an earthly

Thirty-Three

situation to its right conclusion, hold the condition "steady in the Light" to be cleansed of the outer world illusions that have created the confusion.

Be at-one on the Soul level with the one who asks your help, but do not let yourself become involved emotionally in his personality affairs. To do so only drags you down into the whirlpool with him.

The unreal brings forth the unreal.

True compassion flows from the Christ level of Being where you are *consciously* linked in Oneness with all who seek your aid. Stand there with him in the Light and Love and Power of the One Life from whence all true help comes.

Salute the Christ in him to awaken his own will to SEE, to LOVE, to ACT from the level of his Real Self.

No true Server makes the mistake of interfering in another's life decisions. To grow, each one must be left free to face his own Soul's opportunity to bring the problem to a right conclusion.

*

*The Soul establishes pure Cause to bring forth
pure effect.*

Come Into Life

Waste not your energy on the unreal. Energy must be conserved. Your energy is well spent when it is wholly dedicated to the Highest Good for all. Make no mistake. A Server can no longer choose to dissipate his energy. "First things first."

Prepare your field of energy to transmit more and more Soul Light, for the Light magnetizes others and in exact proportion to its degree of radiation through you.

Place this magnetization in operation for those not yet able to hear the Inner Voice of the Silence in their hearts.

Guard well your esoteric knowledge. Many are not yet prepared to handle high-frequency energy from the universal level of Being. Your Work for them is to awaken their Christ-consciousness through the power of unfailing Love. Their own Souls will then lead them to the Path of Light and Love and Power.

You shall have cause to make the degree of truth you have achieved your safe-guard. Your focused Will is required to penetrate illusion so that Life's true

Thirty-Four

meaning can be recognized.

Make over all you are to the expression of the Highest Will-to-Good as regards your usefulness, and then let no obstruction prevent fulfillment of Its purposes in you.

Full relinquishment to the One Life provides the true solution to all outer problems that have to be faced with intelligent action in the world around you. The Soul is never unintelligent.

Your constancy and purity of purpose will, of course, undergo a frequent testing, for you are in training to become a focal center for a high spiritual activity that brings the Real into expression. Through you it can find an outlet at the human level.

Heed the call to Come into Life. Then shall you draw the sons of men into the knowledge and service of the One Life. Thus do Light and Love and Power spread their influence on Earth.

*

*Conserve and direct your energy to fulfillment of
the Plan.*

Come Into Life

Live as a Soul aware of the needed power to achieve pure purpose. In the One Life you have an inexhaustible resource of energy which assures the final victory of the Real.

At the Soul level you are linked in Light with the Hierarchy of Great Servers. SEE Them as a "powerhouse of Light."

The Forces of Light are also known as "The Great Companions of the Way" because We have pioneered the human Path toward Deity, know the difficulties of the Way, and so can help you to help yourselves and all your fellowmen to reach Reality.

Only on the Light-beam of the One Life may We communicate with you, and only concerning your service to the Whole. Only in Soul Light can you understand and implement the focused spiritual energy that We train our Co-workers to receive and transmit to heal and bless the world.

Come Into Life has been projected to you on the wave-length of Light by which Soul Ideas are made available to the minds and hearts of men.

Your consecration is not to Us but to the One Whose

Thirty-Five

perfect Plan for Man We serve together with you. Spiritual stature, great or small, only indicates the degree of Being that One.

The Forces of Light are Those who have attained Oneness with the Whole.

Soul Light shining in the head of individuals who have become Soul-aligned, signifies their readiness to be trained for self-forgetting service to the Whole. We all serve Deity best by serving the divine Cause in humanity.

The degree of your Soul Light is all We see in those who would "serve the Whole with *pure* intent." Be assured We have no time nor energy to waste on interfering in your personality affairs which are your own Soul's responsibility.

True stability comes from a firm focus in the self-forgetting Will to serve the One at any cost.

*

Enter the Garden of Soul Vision to see Life Whole.

Come Into Life

Carelessness betokens lack of purpose. Purpose depends upon responding to your Higher rather than your lower nature. You already know far more than you express in your thinking, speaking, feeling, loving and living. Live as a Soul.

The needed transformation comes from being your Real Self functioning through your personality; the Soul-infused personality.

You tend to be all too easy-going, serving the Forces of Light only intermittently. This breaks the current of spiritual Energy seeking to transform your Way of Life.

You can, if you *will*, make yourself a sensitive receiving station for the Soul's purposes to serve faithfully, that is, consistently, with the Forces of Light that can regenerate the world.

Register these Soul impulses without so much interruption from your intensive focus on the purely personal interests that divert your energies to self-centered matters.

All Workers are responsible for the Work to be done. Be true to each opportunity to serve as a Light-bearer.

Thirty-Six

Develop persistent spiritual Will to do your part in accomplishing the divine purposes on Earth. Knowing and Being the One is the Christ-Will for you and for all humanity.

Oneness manifests as Love. Love is the universal Energy that radiates from the Cosmic Christ-Principle through Our Lord of Love, the Bodhisattva, the Transcendent of Christ, Who has given it perfect embodiment on this planet.

Through Christ Transcendent this Energy is transmitted to Christ Immanent in every human being, so that the Soul of Man may grow "into the full stature of the Christ."

This Christ-Principle of Love is the "true Light that enlightens every man that comes into the world." The development of this latent Light to its full glory brings him finally to the destiny of all men, the transformation from the son of man into the Son of God.

*

I am the Way and the Truth and the Life.

Come Into Life

Only the Soul, the emerging Christ-in-you, can wield the energy of universal Love that is the Law of Life, the Law of Oneness with All, because all Life is One.

Evil is a violation of that basic Law. Therefore, separatism is the "great heresy," the prime sin against the Holy Spirit. The practice of instantaneous forgiveness thwarts this enemy of right-relationship to all your fellow-men.

"I salute the Christ-in-you, my Brother."

Right-relationship is the keynote of Our Work with you in service to the Plan. It is the Spirit of the All-inclusive One in action.

The Brotherhood of Great Servers knows no sense of separateness. We are all members one of another in bringing forth Reality. True use of the Christ energy of Love radiates its blessing to all beings without discriminating against any.

To be an effective Server of Humanity requires a Soul focus to receive and transmit the boundless Love of the One Life flowing to you at all times.

"The Server comes to know himself as naught but a

Thirty-Seven

channel through which spiritual agencies work, a corporate part of the One Life." E.M.C.

Reality is everpresent in all situations. Therefore, your service to the Whole includes all levels of your being to meet all levels of the human need for Love in action.

Release the magnetizing power of Love to all within your circle of influence. Many are already thirsty for the waters of Life but know not that the Source is in themselves.

Give the Christ-energy of Love expression in your lives and it will be the magnetic force to spread the service to the Light, that sooner or later must attract all men.

Know that Our instructions are to this end only, that you may be trained and available Servers in the One Work that We have undertaken for Humanity, that the Christ may be all in all.

*

"With pure intent I serve the Whole."

Come Into Life

Through Soul vision you will SEE and experience the vitality and beauty of the Inner-worlds, the Kingdom of God within you.

There you can know and accept as Real your full possibilities of serving with the Light-power of the One Life to help regenerate the world. "BEHOLD! I make all things new."

The Soul which has gained dominion over its instrument, the personality, can implement these High-frequency energies of Life. Handling such energies requires the Science of the Soul.

The technique of Creative Meditation will increase your realization of Soul values that will give you true perception of the need to be met with accurately focussed and Love-directed energy.

Think through thoroughly, with Soul SEEING, every human situation to its true conclusion in the Whole of which it is only a tiny part. Invoke the perfect Good and not your limited opinion of what that good should be.

Remember that the Will-of-the-One is not the Will of a Being. It is the universal Law of Good pervading all that IS. It is the Law that moves on an evolutionary spiral "from good to better, best."

When you make over all your affairs to the Highest

Thirty-Eight

Will, your cup will be full. To be filled with the perfect Good, that cup must first be freely emptied of the imperfect. Human resistance makes that process a time of difficulty.

The divine Center of All Good contains its own sustaining power to fulfill itself.

The difference between the Real and the unreal in your activity is distinguished by the focus on pure purpose instead of upon the illusions of egotism. With this in mind, seek no spiritual experience that will increase your self-importance in your own eyes or in the eyes of others.

Herein lies the distinction between pious self-seeking disguised as spirituality and the true advance of self-forgetting service to the Whole.

If you speak of "my day", your Soul can remind you that it is really "MY day" in which you merely participate. So can you find eternity in the midst of time.

Link with the Whole if you would serve the Whole.

Come Into Life

Will to be a transmitter of the Light, not just to be enlightened.

Place your Whole being, night and day, at the disposal of the Forces of Light, for you will need Their support in the conflict between good and evil in the world.

Your place of service in that world requires you to stand firm and unafraid while you are being tempered in Life's purifying fires. Again, "He who loses his life shall find it."

Ease and comfort are a hazard to the Server, not an asset. That which looks positive through spiritual insight, often looks negative to man's limited viewpoint.

The Path is ever through the barriers created by the self-centered mind under the influence of personality desires. Let your mind reflect the Light of the Soul at all times, and see the change in outlook.

Proceed in confidence, for that is always the first step. Move forward with an unfailing Will to complete your destiny, in spite of your natural human failings, to SEE Life Whole.

The humble of heart shall be rescued from the

Thirty-Nine

“burning ground”. Through true humility an arrogant nobody can be transformed into one who can serve the Whole with *pure* intent. Pure refers to the absence of self-seeking, spiritual or temporal.

The inability to realize that the One Life can be in action through your outer being, will cost you years of needless hesitation and delay.

Allow your mind to accept the fact that your Source is inexhaustible. Consecrate your mind and your emotions to that Source. Then let its Light and Love and Power emerge through you to demonstrate its perfect Plan for you and all mankind.

Know it. Feel it. SEE it bringing forth the Real to bless humanity.

Your true inner status is known to the Light Forces. Contribute to the Work fully to your present measure, and you will find the next step forward waiting for you. May the great courage possess you.

*“Let power attend the efforts of the Great
Servers of humanity.”*

Come Into Life

We see the windings and turnings of fortune as a means of leading you safely Home, and not for your confusion. Whenever you truly operate from the Center, in Oneness with all that IS, no matter what that requires of you, then there is no need for all the painful outer experiences to teach you permanent values.

You will come to see that your outer life is merely a "part" struggling toward its inevitable union with the Whole. It is only a means to this end. In Reality, the part and the Whole are already One.

The power of the One Life accomplishes the work of transformation with effortless efficiency. But for that power to manifest in you, purity of purpose must have been established and maintained. Hence the divine catharsis every Server of the Whole must undergo.

Workers with the Forces of Light must have acquired a sincerity of purpose that distinguishes without guile between spiritual self-seeking and the self-forgetting Way.

All turns to darkness if you pursue spiritual glorification as a goal. No one can be an exception to

this rule. Be aware of motives.

You are significant in the world of Spirit only in proportion to your self-forgetting service to the Whole. Your liberation lies beyond the thick walls of separatism created by the little self.

Note how much less stubborn-minded so-called "sinners" may be than those who feel sure of having spiritually attained.

The temptation to a feeling of superiority is always in hot pursuit of those advancing on the Path to freedom. True Servers are needed who can joyfully wear the cloak of invisibility because they can thus circulate unnoticed.

The "secret gate" into Life is low so that only the lowly may enter in.

"Every valley shall be exalted and every mountain and hill shall be made low; and the crooked shall be made straight, and the rough places plain."

"And the glory of the Lord shall be revealed."

Come Into Life

All true progress consists of increased *conscious* living at the universal Center of your Being where all Life is One.

From there you can think, speak, love and act, at-one in Spirit with all that IS. See how this demolishes the human barriers of separateness that have to be removed before the One can manifest its power through you to establish right-relationship on earth.

Determined consecration to this Christ Principle of Love keeps you integrated with the Whole. When it has become a motivating policy applied to every situation, your alignment will be maintained effortlessly.

Human effort to stay in line restricts. Soul-direction makes you free. Do not belabor the personality with a false ideal of perfectionism.

Soul-living creates a focus through which the Forces of Light can operate. So do you become a link in the endless chain of regenerating Light and Love and Power by which all things are made new.

Servers are so greatly needed for this Work.

Forty-One

Strengthen your conviction of the need. Link consciously with the endless power to meet that need.

Do not dwell on your present incapacity to function perfectly. You increase your capacity to serve effectively by using without reservation all that you have so far gained of understanding.

The Forces of Light stand ready to help with Our Co-workers' progress, but never to make decisions for them. Your own free choice from the Soul level is essential to your growth in realization.

Keep ever foremost in your heart-thinking the purpose of the Plan to bring forth universal Good for all mankind. This means a moment by moment preparation toward progress in self-forgetting Oneness with your fellowman.

Do the best you know, and you will know the best to do.

*

"Let there be light, and there was light."

Come Into Life

THE ANGELS' MESSAGE TO THE ASPIRANT:
Set no hostile vibration in motion for any reason
whatsoever.

By living in the Light of the Soul you will recognize no foe in any other person or circumstance. Make a moment by moment renunciation of the self-centered outlook in favor of the One Life's Will-to-Good for all. This saves years of bitter experience in achieving right-relationship. Without it, spiritual learning and high aspirations can be a snare and a delusion.

Do not waste your opportunity to grow in Love and Wisdom by dallying with the personal forces within you which have never given you what they promised, as you will agree.

There is no real progress save by the Soul-governed energies of your lower nature, the mental-emotional activities of the personality. Without this adjustment, step by step, there can be no realization of the ever-present One.

This is the Law, and no one can abrogate it for another, not even a legion of Angels. It is decreed by the Self to the little self for himself. No one imposes it upon another.

You are not asked to do aught that any other aspirant is not required to do. It is as easy or as

Forty-Two

hard as each one makes it by his own attitude. Love makes it easy by tapping inexhaustible resources.

Now if ever is the time for you to learn that your individual attainment is to one end only, namely, that you may be available as trustworthy Servers with the Forces of Light in bringing forth the Kingdom of God on earth as it already IS in Reality.

The Cause to be served is the uplifting of humanity to the Soul level of Christ-consciousness for which so many are now ready.

All aspirants recruit under the banner of the One Life to triumph over negative forces which strive to retard this glorious era.

The One Life is all-inclusive, finding expression through all men however different their approach to truth may be. But the Law of Oneness is the same for all.

No other effort will be required to spur you forward to the Goal of union if your consecration to the Cause of the One is greater with every passing day.

Come into the Life of the One.

Come Into Life

If your treasure accumulates on the emotional level, there will you stay defending it.

Non-acceptance of conditions that displease you also holds up progress on the Path. Confront all opposites, positive and negative conditions, with Soul power to at-one them. All are needed for growth in understanding. Outer circumstances either make or break you.

A true Server surrenders his affairs to the Will of the Real Self.

An obstacle race is only a preparatory measure. So is the difficult condition. The best is often developed through the worst, and so mastering is achieved. The crucifixion led to resurrection.

You are not flying blind. All you are or shall be depends upon undeviating trust in your own Soul to direct your course in true and accurate relation to the Whole.

Egotism is the inflated lower self compensating for some mistaken feeling of inferiority. Its self-seeking nature intensifies the human tendency to separatism, thus preventing fusion with the Whole.

Separatism is the line of least resistance in emotional living, because that demands an object for its love or hate. It re-acts instead of acts.

The Soul in control of its feeling nature rays forth

Forty-Three

from the Center, as does the sun, to any and every periphery of human need, unrestricted by human standards of worthiness or unworthiness.

From that Center the supply of Love is inexhaustible. Thus focused in the universal Good-for-all, instead of in separate, self-centered desires, personality problems fade in the radiance of Soul Light. They are no longer seen as problems but as stepping-stones to greater understanding.

"A disciple is one who has shifted his life-emphasis from the personality into the needy heart of the world." *E.M.C.*

Progress is change and growth into consciousness of the One Life in all. Say from the heart:

The sons of men are One,
And I am One with them.
I seek to love, not hate . . .
I seek to serve and not exact due service . . .
I seek to heal, not hurt.
The sons of men are One,
And I am One with them.

*

"Let love prevail: Let all men love."

Come Into Life

Keep building and strengthening the "Bridge of Light" between the Higher and the lower self. You have your Inner Source with which you must maintain connection *consciously*.

In turn you become a re-source for all who need your aid, and a reliable center of focus for the Forces of Light. For constant renewal, hold all your personality forces "steady in the Light".

You cannot serve the Light as a Soul by relying on your own nervous energy which is physical and, therefore, exhaustible. Any mistaken effort to do so will stretch it with the effort to the breaking point which is as harmful as it would be ineffective.

Only through the "Jewel in the Heart", the divine One within you, can the Work proceed to its fulfillment. Our Work together is to bring forth the triumph of the Christ in Man.

Trust your own Soul to use your every energy correctly and to full capacity. This is the true tension giving the needed tensile strength for the Bridge of Light between the Inner and the outer worlds.

Forty-Four

To bring a spiritual project to completion according to the Plan, use the dynamics of the Highest Will informed by Love and sent forth into Intelligent Activity. This is the Trinity at work.

Let your Soul's Idea be expressed through you in thought and word and deed.

Keep your mind focused in Soul Light: Keep your heart open to all human need: Remember your Hierarchical connections at all times. Use this direct Invocation to meet world need:

O Lord of Light and Love,
Come forth and rule the world;
May the Prince of Peace appear
And end the warring of the nations.
Let the reign of Light and Love and Justice
be begun;
Let there be peace on Earth,
And let it begin with us.

*

*"Of myself I can do nothing. In Thee all things
are possible."*

Come Into Life

Be at peace in spite of all you have to overcome within yourself.

Worry about your progress is not Intelligent Activity. It is far more often merely spiritual pride masquerading as humility.

Open your heart, your mind and all your energy to the power of Soul purpose and you will advance from the unreal to the Real with joy.

With confidence in the One Life to express itself through you, call all your forces together for a break-through into Soul Light. We await the triumph of your complete surrender to that Light.

Come into Life. It is the "Way made straight" through you for the good of all.

Wear the robe of fiery purity of purpose. Perform your daily tasks in a spirit of joy instead of duty. The latter is well enough for the feeble in spirit catering to their own sense of virtue. But the strong derive their strength from the Wisdom of joy, the key to the door of progress toward the Center of Being.

If you accept the invitation to move forward and accelerate your pace, engage the Highest Will to use your full capacity to its present measure. Only so is that capacity increased and not by anxious

Forty-Five

striving to seem better than you really are in practice.

The eagle soars. So will you soar when freed from old entanglements.

Self-protecting, qualifying clauses are the resistances to progress, raising barriers that must sooner or later be removed. Life does not impose burdens that you cannot handle gracefully.

Be willing to go forth into the difficult desert places that must be traversed, carrying with you no fear of failure.

Stand at the Center of All Love, receiving and distributing the power of the One Life to meet all human need. The "pearl of great price" which you have sought is the reward of serving the One Life in all.

Here, to your use, is the oldest recorded invocation to the One:

From the unreal to the Real, lead us.

From darkness into Light, lead us.

From death to immortality, lead us.

From chaos into beauty, lead us.

*

The shared life is the fulfilled life.

Come Into Life

The Lighted Way is the Lighted Self. Let your Light so shine that it will become a Path of Light for others.

The emotional way is the illusion of separate-selfishness struggling through self-created chaos. What kind of energy radiates from you predominantly? Radiate it will from any level on which you live.

Would your radiation be a spiritual vibration that attracts men to your Way of Life? Or would it be so dim and wavering as to make others lift a questioning eyebrow as to the value of your training to be one of Our Light-bearers?

It is said that what you are spontaneously is what you are in fact. Do you think and feel and speak so as truly to be a Soul-infused personality? Or are you a constant misery to yourself and others because your motivations are consistently emotional?

Spontaneously means no time to put on a Soul mask to deceive yourself. No time for pretense of being what you know you *ought* to be. No time for the glamorous idealized image of what you like to think you are.

Would your quality of spontaneous living radiate Light, twilight, fog, or actual darkness?

Forty-Six

Do you attribute any effective radiance you may have to your own spiritual achievement, or do you keep consciously aligned with the power of the One Life giving it full credit when a need is met?

“All Life moves to demonstration”. EMC. What does yours demonstrate?

At night prepare yourself for sleep with utmost purity of purpose that you may work consciously with the Forces of Light around the clock. Seal your day with the “Gayatri”, taken from the oldest scriptures:

O Thou that givest sustenance to the universe,
From Whom all things proceed,
And to Whom all things return,
Unveil to us the face of the true spiritual Sun,
Hidden by a disc of golden Light,
That we may know the truth and do our full
duty
As we journey to Thy sacred feet.

Know clearly. Love fully. Act intelligently.

Come Into Life

Come into Life and make the Highest Will of the One your Source and Goal. The conditions for progress on the Path are rigorous indeed, so do not be looking for an easy journey.

Weigh your values to see if your style of life is still of greater importance to you than your Way of Life.

Take no anxious thought for the morrow's obstacles that you may meet. That would give them negative energy to thwart you with frustration and delay. Go boldly through all hardships instead of stopping to resist them. "The road leads forward into day."

You are only victims of that which you allow to victimize you.

The joy is that Man in his own Center of creative Being holds the answer to the problems that confront him and the world. Every human problem has its Soul solution. But to attain a Soul solution you must be sure that the Soul's Way is not obstructed by tenacious desires disguised as needs.

Living by desire generates the emotional problems that afflict the world. Emotions must be servants and not masters of your situation.

To live fully in the Beauty of the Highest Will, the

Forty-Seven

Server will have *consciously* shifted his life-emphasis from the little to the Greater Self. There his interest centers automatically in world-need and not on his own personal temporary wants.

In spiritual childhood it is normal to "rely upon the Lord." This is the stage of praying to an all-powerful Heavenly Father to do *your* will; to satisfy your wants, because you have become His loving child.

But when you grow up into a spiritual man, you have become *imbued*, with the Highest Will-to-Good for all mankind. This power lives and moves in you when you know the Self as One.

You have become the Server, not the served.

Our Father who art in peace, inton-ed be Thy
Name;

Thy realms arise; Thy Will incarnate upon
earth as in Heaven.

This day impart Thy word and remember not
our offences

As we forget those who offend us.

Through temptation guide us, and from error
deliver us. Be it so.

*

Peace to all beings.

Come Into Life

"The Lord IS my Shepherd."

I give over freely and fully all of my affairs in life to the leading of the Highest Will for my progress on the Path, for my service to the Whole.

"I shall *not* want."

I shall stop wanting for the little self. It is my desires for self that block and divert the free flow of spiritual energy through me to serve its perfect ends and purposes.

"He maketh me to lie down in green pastures."

I can now relax all tensions and anxieties, confident that all true need can and will be met within the perfect Plan for me and for all mankind.

"He leadeth me beside the still waters."

Water symbolizes my emotional nature. All disturbance stilled, I am at peace.

"He restoreth my Soul."

I have given my Soul its right to reign over the Kingdom of God within me.

"He leadeth me in the paths of right-useness for His Name's sake."

My Source and my Goal are reunited through pure purpose.

Forty-Eight

"Yea, though I walk through the valley of the shadow of death, I shall fear no evil, for Thou art with me."

In the One I am invulnerable. In the One I am invincible.

"Thy rod and Thy staff they comfort me."

Help is everpresent in the power of the One who rules my life.

"Thou preparest a table before me in the presence of my enemies."

The feast of joy to which I am invited requires that I face up to all my enemies, the conflicts and hostilities, long present in my life.

"Thou anointest my head with oil. My cup runneth over."

The old wounds of past injuries disappear as the healing oil of Love flows forth to fill my cup to overflowing with compassion.

"Surely goodness and mercy shall follow me all the days of my life."

I am a receiver and distributor of God's spiritual bounty. Wherever I go His universal power will flow from me like the wake of a ship that follows after it, leaving a trail of goodness and mercy to heal and bless the needy heart of all humanity.

May you dwell in the house of the Lord forever.

Come Into Life

Your Lighted Way of Life must demonstrate the Path for others who will follow after. Come into Life with many accompanying you.

As a representative of Oneness, you must never willfully express the slightest violation of that Oneness to be a stumbling block to your associates.

These training lessons concentrate on Oneness because it is the Law of Life, and because separatism is known as "the great heresy." Hostility must be rooted out of each individual and out of all humanity. Only so can man survive his ability to destroy the human race.

As you move into new areas of activity, be sure to take nothing with you of past prejudice or other surplus burden. Surrender all you are or ever have been to the essential transformation process, for only the Soul-centered man can be entrusted with a fiery brand of truth held aloft to meet the human need for Light.

Be at-one in Spirit with the seekers of Light who look to you for aid. Only the Love of the One can open doors for them that must be opened. Yours not to force results, but only to prepare the fire. To be a blessing, fire must be controlled intelligently.

Rigorously avoid the glamor of "needing to be needed", the emotional escape for many who find it easier to point the way for others than to practice

Forty-Nine

it themselves. We call them "mission-minded people", these idealists suffering from a spiritual fever. It is the great temptation to manipulate the lives of others and to be heard.

Speak in terms of universal Principle so as to reach the heart instead of the emotions. Do not impose the truth as you see it. Let the truth speak *through* you as it IS, enlightening you at the same time. This is "skill in action." What should be said, then will be said.

To spread the Light, the Soul makes conscious contact with the Forces of Light. This keeps your focus on the purpose of the Plan for all mankind to grow into the full stature of the Christ waiting within to establish the Kingdom of God on earth.

Let the Forces of Light bring illumination to mankind;

Let the Spirit of Peace be abroad;

May men of good-will everywhere join in the spirit of cooperation;

Let the Spirit of forgiveness be invoked by men everywhere, one toward the other;

Let power attend the efforts of the Great Servers of Humanity.

*

There is only One, the Perfect One.

Come Into Life

The desert pilgrims thirst for the Living Waters with which the One Life flowing through you can refresh them.

If you are called upon to teach, speak to the questioner Spirit-to-Spirit. Then the needed teaching will take effortless expression in terms that he can understand.

Lift up your hearts in gratitude for all he is as of that moment, and bless him with your Love.

All that IS is developing through form into a fulfilled expression of its perfect Being. At any given stage it must be loved to assure its further growth toward Wholeness. Even a snake in the grass is fulfilling its own laws of being, and so is not to be despised for what it is at present. Recognize all Life as One.

We find that the need is great for a full outpouring of Love to those who wait just outside the gates of the Kingdom. They are unaware of their arrival, but are ready to receive the word of Christ-activity in Man if and when it is directly focussed to them by trained Workers in the Light.

Do this in meditation for Christ's Kingdom come on earth. Invite them to enter into Light. They will receive the message in their own hearts although you may never see them in the flesh. This is the esoteric Way.

Be only an over-shadowing presence of Love to the seeking ones who cross your path.

Any outlet for the Light, as you aspire to be, will be placed in a dark area where light is needed. Therefore, do not focus on the human failure you are sent to help. Rather, rejoice in the power of the Christ to meet and overcome all darkness.

We see Man in general as still in a primitive state in his long evolutionary growth toward the perfect One already within him waiting to be given full expression when the instrument is ready.

We serve humanity to speed that growth. Those who would serve that Cause with Us, can take the Server's Vow:

Never will I seek nor receive
Private, individual salvation;
Never will I enter into final peace alone,
But forever and everywhere will I seek and
strive
For the redemption of every creature throughout the world.

*

Practice the Presence in all for all.

Come Into Life

When Love has triumphed over separatism in the minds and hearts of men, then will "Christ's Coming Church upon the Earth" appear.

For this Plan the Forces of Light are working with the cooperation of groups and individuals dedicated to the service of the Light of Love. We are custodians of the Plan to bring forth the Kingdom of God "within you" into full expression in the outer world. But only as Man himself responds to Soul Light can the next forward step be taken.

In conscious living, respond to the Light of the Christ-in-you, the Soul. It will lead you to the Path of service where sooner or later, through the power of Soul-magnetization, you will find a Group of serving Souls with whom you can work for the Plan as one.

The New Age is the Group Age because Soul Groups can function with the increased power of pooled energy. Each such Group of Servers becomes a transmitting station on the Light network.

Group life is a sacrificial Path to joy, the joy of being one with the great scheme of spreading Light effectively.

Serving with the Forces of Light, these Soul Groups know the Plan and are in touch with the Teachers of the Wisdom on the inner side of Life. The Teachers of the race are living Beings, pioneers of the Lighted Way to Deity. They are not to be confused with the discarnate spirits accepted as "guides" by unwary wanderers on the emotional level.

Fifty-One

Groups who serve with the Forces of Light are trained to transmit the Fire of spiritual energy received only at Soul levels to be directed through them to influence world affairs according to the Plan. Opportunity and responsibility go hand in hand.

Developing Group Soul consciousness will test your ability to practice Oneness in the Here and Now. It takes steadiness of purpose that transcends all personality reactions to each other.

The Server "forgets himself in building for the world."

Come into Life means Soul-service to the Whole, for you can do your part in keeping the balance of power on the side of Light. To serve the Whole is the Lighted Way to realization of the universal Self.

I link myself and all my Group brothers,
Through the Lord of Love with those who
dwell in Love

And, with pure intent, serve the Kingdom.

To Christ and His coming church upon the
earth,

I give the full measure of my days . . .

All I am; All I shall be.

So to live is to find eternity in the midst of
time . . .

So to love is to dwell in Christ . . .

So to serve is to be Christ-like

And walk the Lighted Way to Shamballa.

Come Into Life

Arise and be about your Father's business. The Light and Love and Power of the One Life enable you to serve the urgent purpose of awakening the Christ-consciousness latent in the heart of every man. This is the purpose the Masters know and serve.

Your Soul in action, Christ-in-you, can KNOW and DO the Father's Will.

Of your little self you could do nothing. Linked with the Whole, all things are possible. In Oneness you release the energy of Love in action, for Love is the Law of the One Life in which each part is held in right relation with the Whole.

Will builds the structure for Love to inhabit.

Come into Life and receive its peace. Expel all contradictory forces, your resistances to change and growth, for each must finally fulfill his inbuilt evolutionary urge to synthesis that is union with the One.

To be All is to be nothing separate, the part absorbed in the One Life, all barriers gone. Separatism is the root of evil, that denies the Oneness of all Life.

"Let there be Light and there was Light", because the Light is always present seeking expression in the lives of those who know the Self as One. Thus is the Light of the Soul, Christ Immanent, joined in the glory of the Lord of Love, the Christ Transcendent.

Fifty-Two

Our planetary Christ has never left this Earth, and when Christ-consciousness in Man expands in preparation for His coming, He will reappear.

The Work of the Server in the New Age of Christ, now dawning, is to implement His great decision to come forth again. So shall the kingdoms of this world become the Kingdom of Our Lord and of His Christ. Be it so.

From the point of Light within the Mind of
God,

Let Light stream forth into the minds of men,
Let Light descend on Earth.

From the point of Love within the Heart of
God,

Let Love stream forth into the hearts of men,
May Christ return to Earth.

From the Center where the Will of God is
known,

Let purpose guide the little wills of men,
That purpose which the Masters know and
serve.

From the Center which we call the race of men,
Let the Plan of Love and Light work out,
And may it seal the door where evil dwells.

*

*Let Light and Love and Power restore the
Plan on earth.*
